ATLANTA, June 22.—The Supreme Court of Georgia to-day decided that the code of Georgia, adopted by the new convention, forever prohibits the marriage relation between white persons and persons of African descent, and declares that anch marriages are null and void. Second—This section of the code is not repealed by, nor is it inconsistant with, that part of the Constitution, which declares that the social status of the citizens shall never be the subject of legislation. That clause of the Constitution absolutely denies to the Legislature the power to pass laws in future allowing the social status, or compelling the two races to unite in social intercourse; as the laws then in existence allowed churches, for instance, to determine for themselves who should occupy their seats, and where they should sit, and permitted railroads and steamboat companies and hotel keepers to classify and assign places to those using their accommodations, according to social status and grade, as they might think proper. The Constitution of the status and grade as they might think proper. tion puts it beyond the power of the Legislature ever to enact any law com-pelling them to make difficult classifications, or to group together in social intercourse those who do not recognize each other as social equals, and the social relations of citizens are not the proper subjects of legislation. The Constitu-tion has wisely put the matter at rest, by denying to the Legislature the power

to repeal or enact laws on that subject. CHARLESTON, June 22.—Arrived—steamer Champion, New York. Sailed—ship Richard III, Wiscasset.

AYER'S SARSAPARILLA.

FOR PURIFYING THE BLOOD.

THE reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous; inveterate cases of Serofulous Dicease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public secarcely need to be informed of its virtues or uses.

Scrofulous poisonis one of the most destructive enemies of our race. Often, this unseen and unfeit tenant of the organism undermines the constitution, and invites the attack of enfecting or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the lungs or heart, or tumors formed in the lungs or heart, or tumors formed in the of this SARSAPARILLA is advisable, even when no active symptoms of disease appear.
